Quality Improvement

Implementation Science
PARENT Intervention

• PARENT: Parent-focused Redesign for Encounters, Newborns to Toddlers (PARENT)
  • Parent Coach
  • Well Visit Planner
  • Text Message Service
  • Brief, focused clinician encounter

*funded by NICHD and HRSA
Partnered Intervention Design

- Stakeholder interviews and focus groups
- National Expert Panel on Well-Child Care Redesign
- Community Advisory Board (*Building Trust*)
Parent Coach
Welcome Parents! We hope you'll take a few minutes to complete the online questionnaire for YBPC before your child's next well-visit. Your answers will help your child's health care providers focus on the specific topics you wish to discuss, as well as issues that are important for your child and family.

Step 1
Answer a Questionnaire
about your child and family

Step 2
Pick Your Priorities
for what you want to talk or get information about at your child's well-visit

Step 3
Get Your Visit Guide
that you and your child's health care provider will use to tailor the visit to your child & family needs
